# Vision

Empower everyone with AI-driven trading strategies, making trading smarter, more efficient, and accessible to all.

# The Big Opportunity

THE CRYPTO MARKET IS CURRENTLY \$3T

It's expected to grow to **\$20T by 2028**

# Growth Fueled By:

1.

**Institutional cash injection.**

2.

**Crypto-friendly U.S. leadership** driving favorable regulations.

3.

Global adoption of **tokenized assets**.

The background features a gradient from purple on the left to green on the right. In the top-left corner, there is a 3D geometric shape composed of orange and purple facets. In the bottom-right corner, there is a 3D ring-like structure with yellow, purple, and white segments.

**AI + Crypto = Unstoppable  
growth.**

# The Problem

Despite the explosive growth of the crypto market, **traders still face significant inefficiencies.**

Retail traders struggle with high fees, slow execution, and lack of risk managements causing cascade of liquidation events.

Existing platforms **lacks AI-driven intelligence**, making them inferior in trade optimization.

**Trade AI bridges this gap**, providing **AI-powered execution, zero gas fees, and full transparency** to revolutionize on-chain trading.

Trade AI is AI-first, powered by our in-house **Advanced AI GLB (Global Liquidity Balance) Algorithms**, built to optimize execution, analyze trends, and eliminate gas fees for traders.

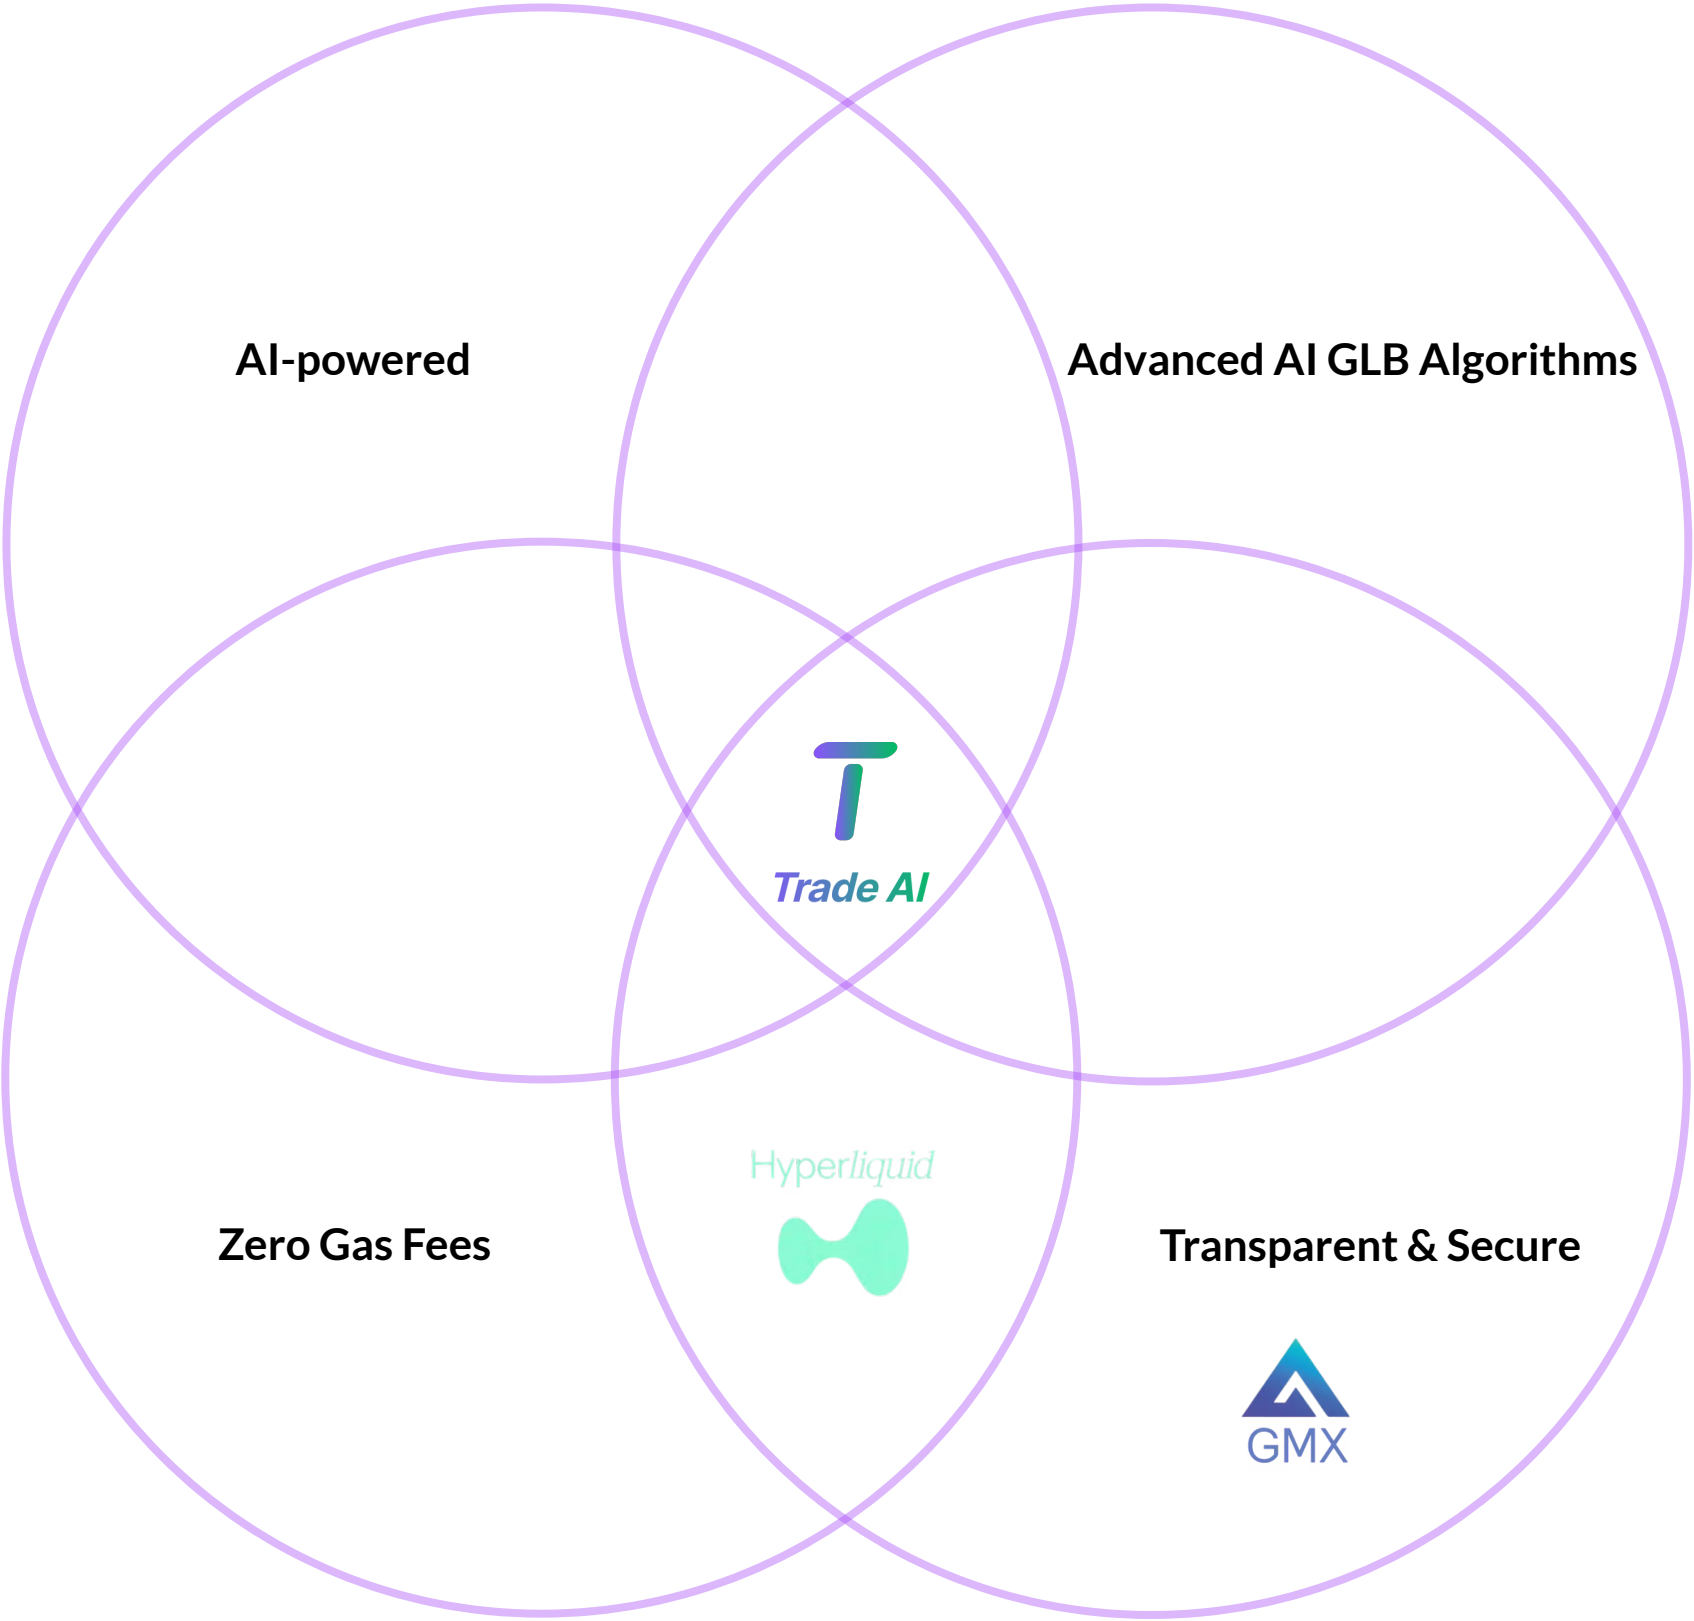

# The Solution – Trade AI

**AI-powered decentralized trading on Solana.**

**Reduced gas fees through AI-driven batch processing. Revenue generation covers the remaining costs to completely eliminate gas fees.**

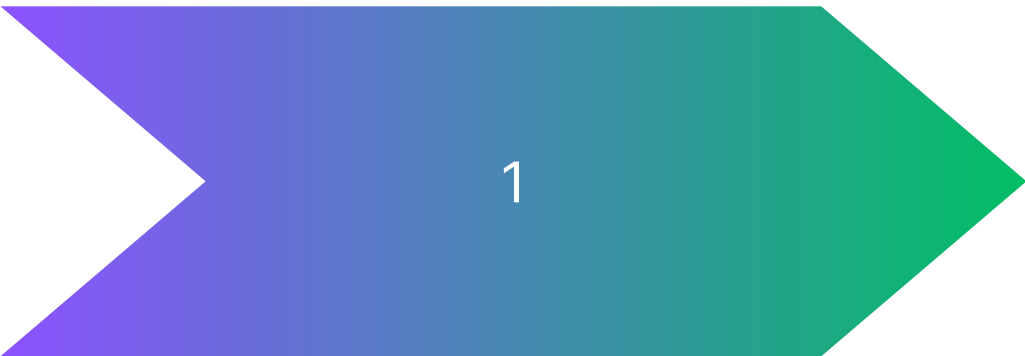

**Advanced AI GLB Algorithms** for real-time market prediction and execution.

**Fully transparent & secure through Solana’s on-chain ledger.**

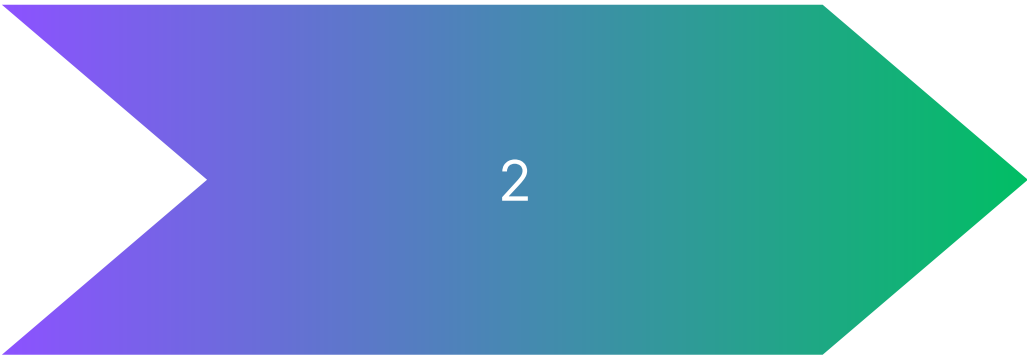

# Trade AI Arbitrage Bot

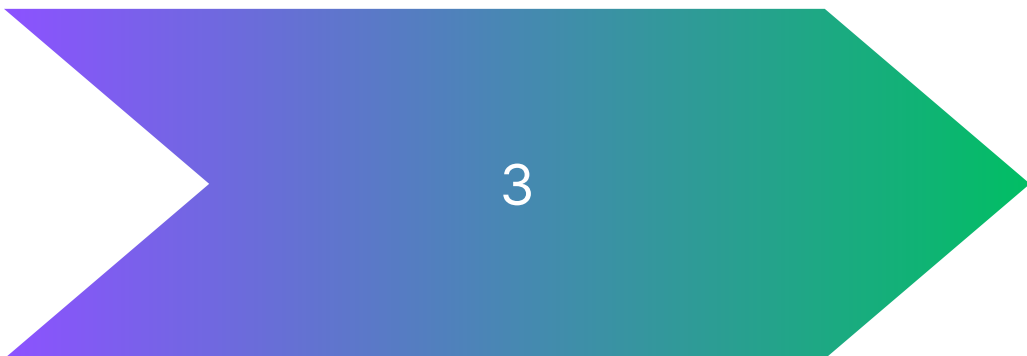

**Trade AI's AI Arbitrage Bot** identifies arbitrage opportunities across multiple exchanges.

**Scans liquidity pools** across exchanges in real-time.

**Finds the lowest liquidity points** where prices are cheapest.

**Executes trades instantly** to sell at a higher rate on exchanges with greater demand.

# Cross-Chain Swap

Trade AI's Cross-Chain Swap supports **100+ native blockchains**, ensuring seamless asset transfers across different networks.

01

PRIVATE & SECURE

Transactions occur with **end-to-end encryption**, preserving user anonymity.

02

RELIABLE & SCALABLE

Built to handle **high transaction volumes across multiple chains**.

# Competitive Advantage

# Why AI in Trading?

TRADITIONAL TRADING RELIES ON HUMAN INTUITION AND MANUAL STRATEGIES.

**AI enables:**

Real-time market  
analysis & optimal  
trade execution.

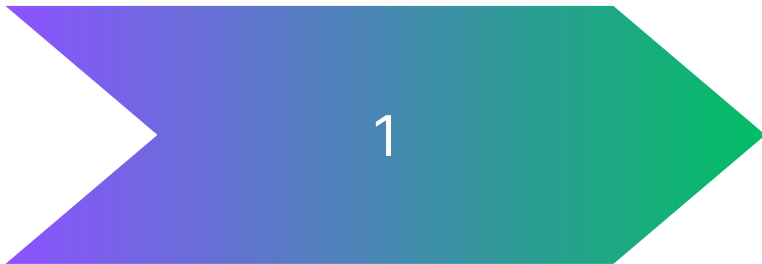

Deep learning-  
based risk  
management.

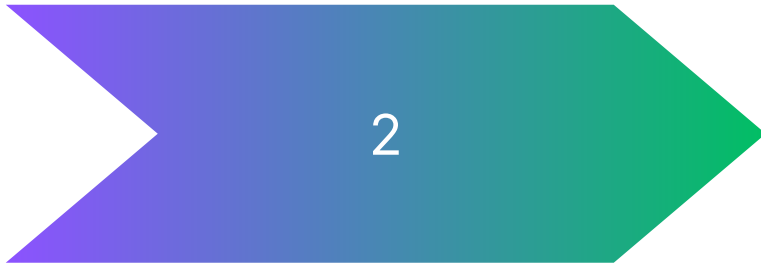

Faster, more  
intelligent decision-  
making.

# AI-Powered Trading Engine

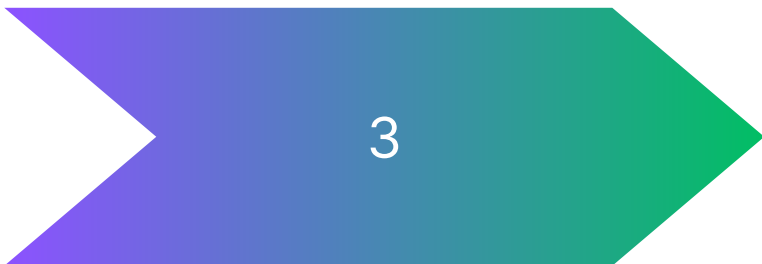

Advanced AI GLB (Global Liquidity Balance) Algorithms:

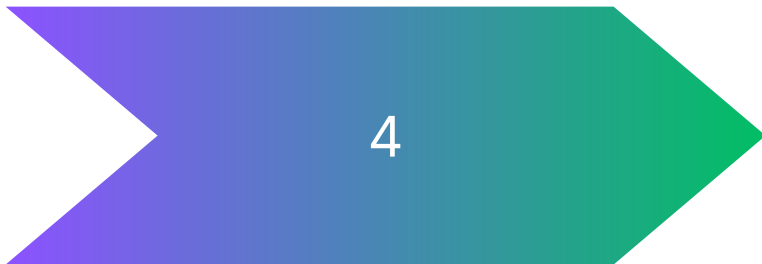

**Predictive analytics** for market trends.

**Adaptive order execution** to minimize slippage.

**Automated risk management** to prevent liquidations.

AI **learns, adapts, and optimizes trading strategies** dynamically.

# Trade AI 2025-2026 Revenue Projections

# 2026 Market Share Projections

\$120B Opportunity

\$120B

- Our **2026 estimates** for total market share in decentralized perpetual futures trading is **\$120B**.
- **Trade AI is expected to capture the majority market share**, driving a projected **market cap of \$60B**.
- This is due to the **lack of AI infusion in competitors**, giving Trade AI an edge in efficiency, execution, and transparency.
- **Hyperliquid and GMX are expected to see steady growth**, but Trade AI's AI-first approach positions it as the dominant player in the space.

\*This graph represents an estimated market share for each protocol in the decentralized perpetual futures trading market for 2026. The figures are based on current trends and available data but may not reflect actual future market conditions.\*

# Utility

\$TRDAI IS THE NATIVE TOKEN POWERING THE TRADE AI ECOSYSTEM.

01

## FEE DISCOUNTS

Users holding TRDAI receive reduced trading fees.

02

## STAKING REWARDS

Stake TRDAI to earn rewards from platform

03

## GOVERNANCE

Token holders can vote on platform upgrades and governance decisions.

04

## ACCESS TO EXCLUSIVE AI TOOLS

Premium AI-driven analytics and trading insights for TRDAI holders.

# \$TRDAI Tokenomics

HOLDING \$TRDAI ALLOWS USERS TO SHARE IN TRADE AI'S SUCCESS AND ECOSYSTEM GROWTH

## CONTEXT:

### Team Allocation Locked

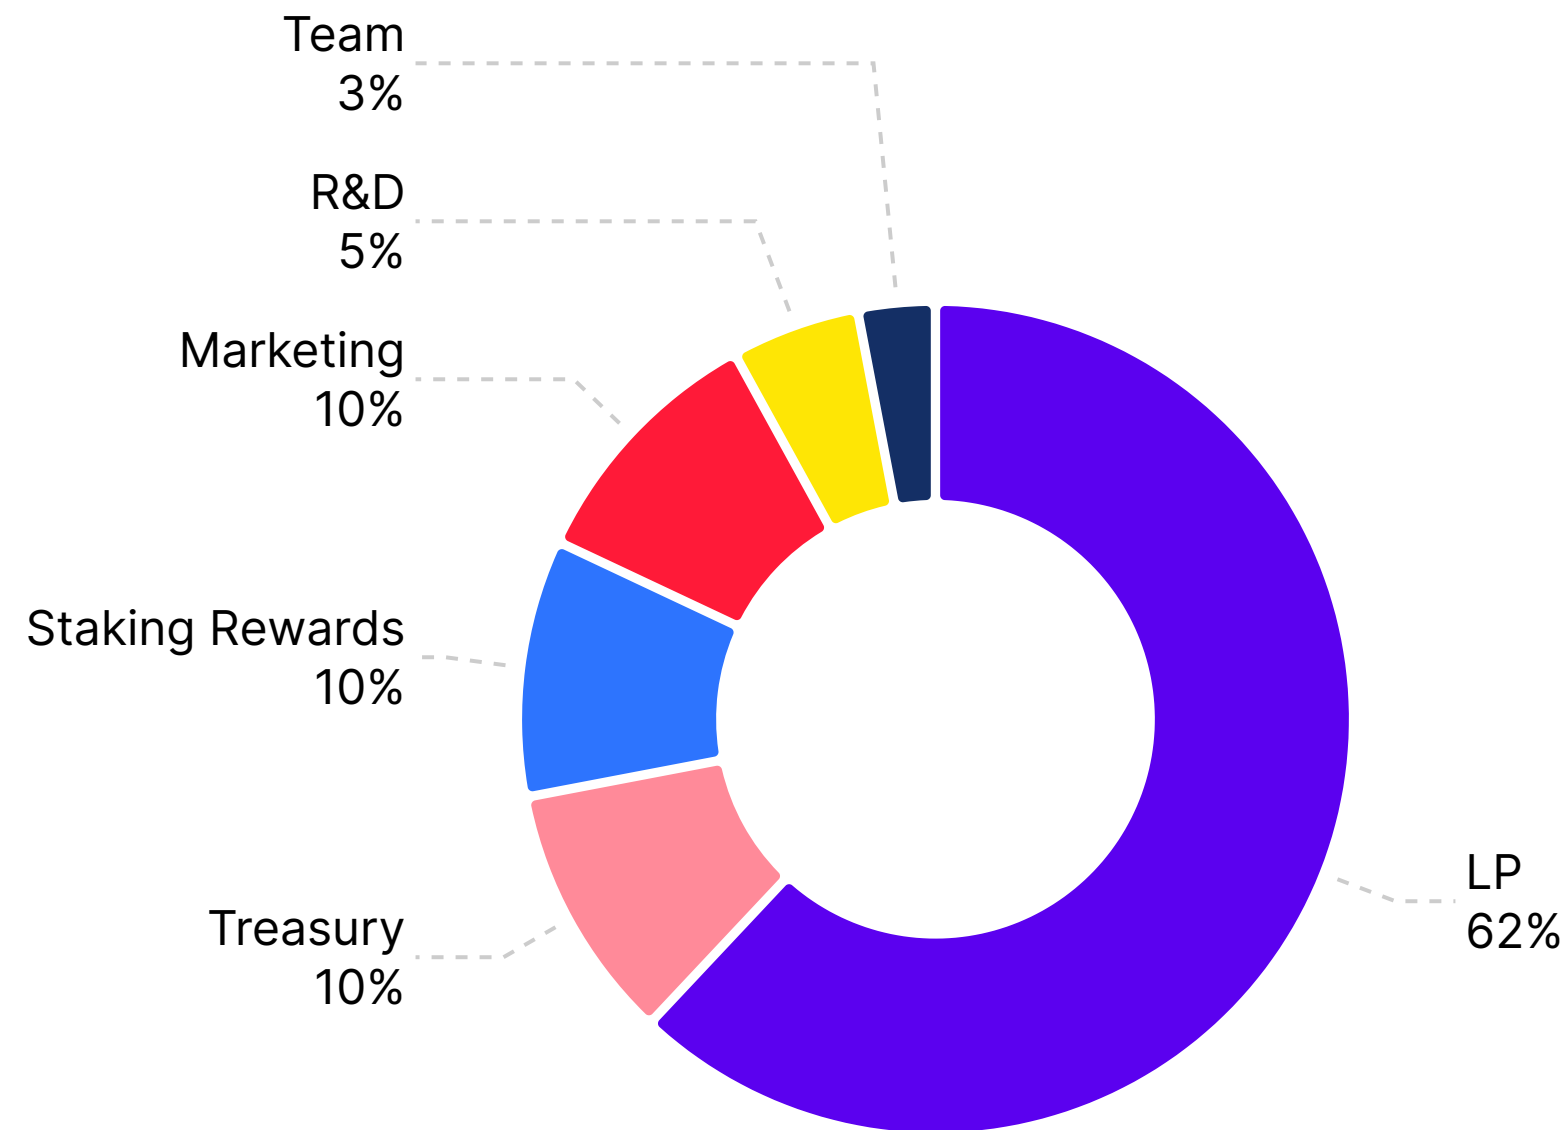

The team allocation will be locked at launch using Streamflow Finance to demonstrate commitment to the protocol.

### Revenue Sharing

A portion of Trade AI's revenue is distributed back to \$TRDAI holders.

### Buyback & Burn Mechanism

A weekly buyback and burn mechanism will be executed using revenue generated from trading, reducing token supply to drive long-term value appreciation.

# Roadmap

PHASE 1

PHASE 2

PHASE 3

PHASE 4

PHASE 5

Q 1 2025

- ✓ Beta testing the **core product** with a small number of users.
- ✓ Refining AI GLB algorithms for **optimized trading execution**.
- ✓ Launch **Native Cross-Chain Product** to enable seamless interoperability across multiple blockchains.

Q 2 2025

- Official launch of the **\$TRDAI token**.
- Implementing a **strategic marketing campaign** to onboard early adopters.
- Launch of **staking and governance features** for TRDAI holders.

Q 3 2025

- First **revenue-sharing distribution** to TRDAI stakers.
- Tier-1 Centralized Exchange (CEX) Listing
- Partnerships with leading **DeFi protocols** for enhanced liquidity solutions.

Q 4 2025

- Institutional onboarding for **custom AI-based trading models**.
- Begin discussions with regulatory bodies for compliance in decentralized **AI-powered asset management**.
- Expanding cross-chain capabilities to **integrate with other major blockchains**.

Q 1 2026

- Full-scale rollout of **Trade AI's decentralized AI-powered asset management services**.
- Solidify **Trade AI as the global leader** in AI-driven decentralized trading, with **fully autonomous AI-powered execution** for all market participants.

# Why Trade AI?

1. ● **First-mover advantage** in AI-driven on-chain trading.
2. ● **Zero gas fee, AI-powered execution** gives us a major edge.
3. ● **\$20T market by 2029** = exponential growth potential.
4. ● **Decentralized AI-powered asset management services.**

Join us in shaping the future of decentralized AI trading.

Thank You
